LUMINAIRE TECHNICAL SPECIFICATIONS

HOUSING

Available in heavy wall cast marine brass with a natural finish or a cast copper free aluminum with a white oven-cured polyester powder coat protective finish.

GUARD

Optional stainless steel wire guard available.

OUTLETS

Watertight connector and 6 feet of 16/3 cord is standard.

GASKET

A one-piece high temperature silicone gasket provides a watertight seal between the lens frame and housing. The gasket is field replaceable.

HARDWARE

Stainless steel wing nuts for all types.

VOLTAGE OPERATION

Rated for operation on 120v as standard, Optional 12v and 28v units are available.

LAMP TYPE

A 120v 60Hz AC 200w par 46 medium end prong medium flood is provided on 740 units and 300w 120v 60Hz AC par 56 mogul end prong on 741 luminaires. Optional narrow spot or wide flood types are available with the exception of 200w 740 units.

LENS

A clear heat resistant glass lens is provided as standard. Colored options are available in red, blue, green and yellow. The lens is field replaceable.

LAMPHOLDER

Porcelain lampholders are provided with high temperature leads.
