

# Light on Board

2007/2008

**AQUA SIGNAL CORPORATION**  
**The worldwide leader in marine**  
**navigational lighting**

Since 1868, Aqua Signal has been manufacturing "World Class Products for World Class Customers"

**140 Years of Experience**

- Aqua Signal was founded in 1868 in Germany to manufacture oil lamps for sailing vessels
- Currently the largest recreational and commercial marine lighting manufacturer for cruise and ferry boat market
- Aqua Signal Corporation started in 1985 in the USA to serve the US recreational marine market

**German Quality at American Prices**

- We take great pride in the quality of our products
- We possess various patents for our inventions
- Our products are tested on the most modern German testing equipment (shock, vibration, UV, salt test, lighting output, etc)
- Aqua Signal lights are vented to allow air flow for the elimination of condensation on the inside of the light
- We can customize products per customer's specification

**Built to Strict Worldwide Industry Regulations**

- Aqua Signal navigational lights are compliant with ABYC A-16 and the USCG regulations, and our horns are ABYC A-23 compliant.
- Our products comply with strict international rules and regulations
- All internal components are made of corrosion resistant material
- UL, USCG, ISO, ABYC, NMMA, and CE Certification

**Worldwide Sales and Service**

- Worldwide offices on every continent

**Best Customer Service**

- Our highly skilled staff works diligently to provide the best customer service in the industry and is always happy to help you
- Many times we are able to ship orders the same day or within 24 hours
- Our customers are always our first priority
- Aqua Signal truly has the best to offer our customers both in product and customer service

**Better Business Bureau Member**
